Professional Profile

An accomplished and well-established graduate from the university of Aberdeen with strong academic credentials and rich technical development skills. Recently relocated to Serbia searching for a junior role in IT industry.

Has expertise in utilising cutting-edge programming languages, developing bespoke software applications, serving as a subject matter expert for Python, working within teams, using a logical approach to resolve challenges and exceeding expectations set by colleagues. Made multiple web applications with Django, which can be seen on the personal website.

A results-focused individual who enjoys working with people from all backgrounds and looks forward to new challenges.
